

# Virtual Drive of Texas

## In-Car Progress Observation Instruction Phase

### Lesson 6 – Coincides with Module 8

Student Name: \_\_\_\_\_ Total Score \_\_\_\_\_

<b>In-Car Progress Assessment</b> - Baseline and progress assessment tool to evaluate and improve behind-the-wheel skill level (mastery equals 70% or above). Add each task score to get the total score.									
<b>Legend: Acceptable = 5      Good = 4      Fair = 3.5      Unacceptable = 2</b>									
Student Demonstrates Ability To:	5	4	3.5	2	Student Demonstrates Ability To:	5	4	3.5	2
1. Observe the student as they perform <b>all</b> pre-drive tasks including occupant protection, seating, warning symbols.					11. While driving on the expressway, have student observe as you perform <b>lane selection</b> .				
2. Have the student verbally communicate to the instructor the types of interchanges and what particular types may be encountered in your city.					12. While driving on the expressway, have student observe as you perform <b>following a vehicle</b> .				
3. Have the student verbally communicate to the instructor the signs, signals and road markings that may be seen on an expressway.					13. While driving on the expressway, have student observe as you perform <b>allowing a vehicle to follow you</b> .				
4. Have the student verbally communicate their understanding of entering an expressway					14. While driving on the expressway, have student observe as you perform <b>passing a vehicle</b> .				
5. Have the student observe as you perform a traffic <b>merge onto the expressway</b> . Have the student commentate as they <b>select your gap in traffic</b> .					15. While driving on the expressway, have student observe as you perform <b>traffic flow adjustments</b> .				
6. While on the expressway, have the student observe as you demonstrate reduced-risk <b>speed and position adjustments</b> .					16. While driving on the expressway, have student observe as you perform <b>exiting the expressway</b> .				
7. While driving on the expressway, have student observe as you perform <b>speed control</b> .					17. Once you have reached your home destination, discuss the previous tasks and provide input on possible corrections.				
8. While driving on the expressway, have student observe as you perform <b>steering control</b> .					18. Observe as the student performs <b>post-drive tasks</b> .				
9. While driving on the expressway, have student observe as you perform <b>lane position</b> .					19. Evaluate overall knowledge of information for this lesson.				
10. While driving on the expressway, have student observe as you perform <b>lane changing</b> .					20. Evaluate overall knowledge of driving skills for this lesson.
